Re: Tucson Electric Power Company – 2016/2017 Electric Energy Efficiency Plan
Docket No. ~~E-04204A-15-0178~~ **E-01933A-15-0178**

To Whom It May Concern:

On February 11, 2016, the Arizona Corporation Commission ("Commission") approved Tucson Electric Power Company's ("TEP" or "Company") 2016 Energy Efficiency Implementation Plan and Waiver Request ("2016 Plan") in Decision No. 75450. Pursuant to the Commission's Electric Energy Efficiency Rules set forth in A.A.C. R14-2-2405.A ("Rule"), TEP is required to submit by June 1 of each odd year, or annually at the election of the Company, an implementation plan describing how the utility intends to meet the energy efficiency standard for the next one or two calendar years, as applicable.

Pursuant to discussions between TEP and the Commission's Utilities Division ("Staff"), TEP hereby notifies the Commission that the Company has decided to not file a 2017 implementation plan and will continue its 2016 Plan through 2017 without change.¹ TEP will file its 2018 Implementation Plan by June 1, 2017 in accordance with the Rule.
